

Your Truckload Carrier

Innovative Logistics Services Inc., established in 1996, is a Northeast Ohio transportation company specializing in truckload dry van service. We service the 48 continental states and Canada utilizing both our asset based company “Essential Freight Systems” and our brokerage services company to meet our customer service requirements. We currently have terminals in Macedonia, OH, Houston, TX, Irvine, CA and Wheeling, WV. as part of our asset based operation.

Innovative Logistics Services, Inc. is a privately owned corporation that has continued to grow year after year by providing personalized attention and customer service that is second to none in the industry. We aim to satisfy our customers shipping needs in order to bring the highest level of customer service and value for their business. Our company’s goal is to bring top quality service as well savings to our customers. We build partnerships with customers that enable us to understand their specific transportation needs and create a mutually beneficial relationship.
